Overview

I am a driven CEO and entrepreneur who builds profitable companies.

any.TV Limited DBA Freedom! became profitable and earned \$10 million gross in 2014. Prior to that, TGN Game Communities Inc (or simply TGN) reached a \$5 million annual run rate before selling the company in Oct 2012.

Freedom! Founded any.TV Limited DBA Freedom! in 2013, a YouTube MCN in both music and non-music. Grew Freedom! to the #7 largest global MCN by end of 2014. See www.youtube.com/freedom

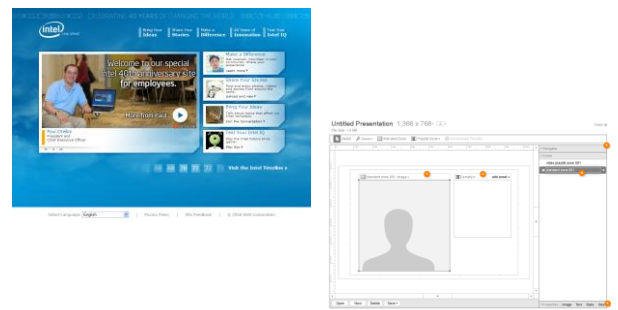

TGN Founded TGN in 2009, creating communities around popular games. Built the company up to support 125 game communities and 20 web properties with over a million unique monthly visitors, acquiring Stratics on May 19, 2010, and sold the company in Oct 2012. See www.thegamenet.com

Microsoft At Microsoft, built the Hotmail.com header that ran on 400 million desktop from Sep 2007 to Sep 2008 and met federal accessibility requirements.

Intel For Intel, managed and developed the Intel 40th Anniversary intranet that celebrated 40 years of innovation and allowed all of Intel's employees worldwide to upload photos, share their stories and play a Jeopardy-like game to test their knowledge.

Cisco For Cisco, managed the development of the Digital Media Designer front-end, implemented in Java Swing.

Ask At Ask.com, built the Ask header, Ask image library and organized weekly Engineering Excellence seminars to train Ask's other web developers.
